Take Advantage of Release From Fort on Bail, to Rush to American Consulate and Throw Themselves Upon the Mercy of Representatives of U. S. Government.

ARMED BLUE JACKETS KEEP OFF MEXICANS

Refugees Put Aboard Admiral Fletcher's Flagship This Morning and Will be Sent Away—Brothers Claim Claim That Only God and the United States Can Save Mexico.

BULLETIN

By Associated Press.

Vera Cruz, November 21.—Everisto and Daniel Madero, two relatives of the late president of Mexico were today taken aboard the American flagship Rhode Island from the consulate where they took refuge last night.

By Associated Press.

Vera Cruz, November 21.—A request for the surrender of Everisto and Daniel Madero to the local authorities was made upon William W. Canada by Col. Eugenio Gutierrez, aide of Gen. Gustavo Maas, Federal commander at Vera Cruz. Mr. Canada promptly refused to comply with the request. The two Maderos took shelter in the American Consulate following their release from prison yesterday on bail.

Consul Canada asked Washington for instructions and was ordered to afford them asylum. After the Consul's refusal today to deliver them up, it was reported that veiled threats had been made to take them by force. In anticipation of any such attempt, a steam launch from the American battleship Rhode Island lay all morning off the seawall opposite the consulate with armed crew of blue jackets on board ready to come ashore at a moment's notice.

The refugees were held in the Consulate without being permitted to communicate with anybody. Not even their wives were allowed to visit them. John Lind conferred with Rear Admiral Fletcher. He exchanged numerous dispatches with Washington.

After release yesterday from the fortress of San Juan Ulua, the two Maderos sought asylum in the American Consulate, where they were guarded in strict privacy until this morning. At about 9 o'clock the two fugitives escorted only by John Lind, the personal representative of President Wilson and William W. Canada, United States Consul, left the consulate building and walked across the vacant space to the seawall, where lay a steam launch with an armed crew of blue jackets from the battleship Rhode Island. The fugitives stepped on board the launch which started off for the flagship.

As they were bidding goodbye to Mr. Lind at the launch, Everisto Madero exclaimed: "Only God can save Mexico!" To which his brother Daniel added, "but only with the help of the United States." Everisto replied, "Yes, that is true." The party had been followed to the launch at a respectful distance by a solitary detective who had been watching the consulate all night.

POWER OF HUERTA CRUMBLING AWAY

By Associated Press.

Washington, D. C., Nov. 21.—Convening of the Mexican Congress and Huerta's reading of his message are regarded by officials here as merely carrying the situation further along, and not as events which forecast any

immediate steps by the United States.

The view here is that each day adds to what Administration officials regard as the steady and gradual disintegration of the Huerta regime. The official view is that should the Congress act on English oil concessions now pending, such act will be regarded as invalid not only by the United States but by Great Britain. A perfect understanding is understood to have been reached between London and Washington.

Inasmuch as foreign governments generally have signified their assent to the American policy as thus far outlined, it is being taken for granted here that so far as the nations of the world are concerned, the new Mexican Congress may legislate as it will, but its acts will not have international sanction as the constituted lawmaking body of the Republic. Such a favorable attitude by other nations generally strengthens the confidence of the Washington government that the power of the Huerta regime is crumbling.

The fact that many members of the Catholic Party did not attend the session of Congress by previous arrangement is regarded as another evidence of the loss by Huerta of one of the chief sources of his previous support.

While no positive steps are being taken and no action of summary character, so far as is known, is planned, the disposition of high officials to await the slow, but what they deem inevitable, pressure upon Huerta to retire.

U. S. OFFICERS SHOT?

By Associated Press.

Mexico City, November 21.—Commenting on the situation in an editorial article today, El Pais says: "Does President Woodrow Wilson not know, or does he not care to know that in history and before the civilized world he will be obliged to answer the charges which humanity will make against Francisco Villa?" The Imparcial publishes today under scare head the statement that the adherents of Carranza in the vicinity of Juarez shot two American army officers. This news is alleged to have been conveyed to the Federal capital by private message which declared that President Wilson is horrified by the infamous executions carried out by Villa which have inclined him to give the Mexican question "the solution demanded by justice and common sense—that is to say—the recognition of the constituted government whose chief is the illustrious Huerta."

FIGHTING CONTINUES

By Associated Press.

Mexico City, November 21.—Hard fighting was still in progress today about Ciudad Victoria, the capital of Tamaulipas, according to information issued by the War Office. Although the city was said to have been captured by the rebels on Tuesday last, it is now claimed that General Antonio Rabago, the Federal commander, is still holding the place, although continuous fighting has gone on inside the city for the last 24 hours. Federal reinforcements are due to relieve the garrison at any moment.

OUR FIRST MILITANT

By Associated Press.

Washington, D. C., November 21.—Miss Lucy Burns, the capital's first militant suffragette, paid a fine of \$1.00 in police court today for chalking the White House sidewalks with "Votes for Women." The judge proposed to release Miss Burns on personal bond not to repeat the offense which is a violation of a city ordinance. "I want this thing settled and over with," said Miss Burns, so the Court made the fine a dollar and she left, the center of admiration of her sisters.

FORCE NEEDED THINK BRITISH

London, Nov. 21.—In official quarters here there is a decidedly despondent feeling regarding the Mexican situation. Hope of a peaceful solution of the question disappeared when President Huerta's message to the new congress became known.

While the sending of the British warships to Mexican waters is said officially to have been done to provide for a "case of necessity for the rescue of British subjects and the protection of British property," there is a growing belief that such a contingency is close at hand. The warships were sent only after the British government became alarmed for the safety of British subjects in consequence of cable messages from Mexico indicating that anything may happen at any moment.

The optimism of the last few weeks that President Wilson's peaceful policy would be successful has given place to the pessimistic conviction that the mess can be cleaned up only by force. This is deplored, as it is realized also that if the United States is forced to the task of setting Mexico in order, it will not stop until the thing is done effectively.

FOOLED THE CROWD

By Associated Press.

Charleston, W. Va., November 21. The crowd of curious spectators assembled in the court house here today to hear further testimony against E. Graham Wilson, charged with an attack on Miss Mate Turner, was disappointed when Judge Woods retired to his chamber, taking with him counsel for both sides and he listened to arguments concerning the testimony to be given by two witnesses for the prosecution, said to be clergymen, whose names were not made public.

UPHELD THE LAW

By Associated Press.

Toledo, Ohio, November 21.—Refusing an injunction against the Lucas County Liquor License Board in Common Pleas court today, Judge John P. Manton upheld the constitutionality of the new Ohio liquor law in a test case in which 40 attorneys representing liquor dealers in all parts of Ohio were interested. The case will be appealed.

Governor Glynn of New York has appointed James W. Osborne a special investigator to inquire into the charges brought to light in the recent campaign. Mr. Osborne and the governor had a conference, at which a large amount of data in the executive chamber, including the papers recently submitted by John A. Hennessy, were turned over to Mr. Osborne.

Great Britain imported 40,000,000 dozen eggs the first three months this year as compared with 35,000,000 dozen the first quarter of 1912.

PASSENGER TRAIN PLUNGES IN LAKE

By Associated Press.

Winnipeg, Manitoba, November 21.—Fireman O'Connor, of Schreiber, was drowned and other crew members and passengers narrowly escaped death this morning when the first section of the Canadian Pacific railroad's Imperial Limited west-bound, from Montreal to Vancouver, was wrecked near Coldwell, 175 miles east of Fort William, Ontario.

The wreck was caused by the engine jumping the track at a point where the road skirts Lake Superior on a ledge 30 to 50 feet above the water. The engine plunged into the lake carrying fireman O'Connor with it. The engine escaped by jumping. The baggage, club and dining cars and the heavily loaded pullmans remained on the top of the grade.

A severe storm whipped across the northern shore of Lake Superior last night tearing down poles and telegraph wires for many miles east of White River, Ontario. For this reason Canadian Pacific Railroad officials experienced difficulty in learning the extent of the wreck when it was first reported.

SETS CUSTOM ASIDE

By Associated Press.

Washington, D. C., Nov. 21.—There will be no New Years reception at the White House, President Wilson announced today. He said that during the Holiday recess of Congress he would take a 10-day vacation. Exactly when or where he would go was not announced.

The White House New Years reception is an historic institution in Washington, being one of the mile stones in the Capital social season. More than 5,000 have shaken hands with the President on such occasions.

"SUFF" USE TORCH

By Associated Press.

Oxford, England, November 21.—Vengeance was promptly visited on the Suffragettes who early today set fire to a great lumber yard on the Thames near Oxford. While the lumber was still burning, the offices of the Suffrage Association in this city were raided and wrecked by a mob, all the furniture and a large collection of Suffrage literature were thrown into the streets. The damage done by the lumber yard fire amounted to \$100,000.

CONSULTS CABINET

Washington, D. C., November 21.—There was no cabinet meeting today, but the President saw Secretaries Garrison and Bryan and Acting Secretary Roosevelt of the Navy. Dispatches received from Rear Admiral Fletcher were discussed but the contents were not divulged.

GENERAL ISAAC SHERWOOD TALKS ON MEXICAN MUDDLE

Father of the Famous Dollar A Day Pension Bill and Who Opposes Literal Construction of the Monroe Doctrine, Visits City to Purchase Fine Horse, but Fails in Mission—Says He Favors Best Method of Disposing of Mexican Controversy.

General Isaac R. Sherwood, author of the famous Dollar a Day Pension bill and an advocate of disregarding the Monroe Doctrine in establishing peace in Mexico, spent over night in this city, arriving on the evening train and leaving for Columbus on the 10:36 train Friday morning.

The noted warrior and legislator stopped at the Cherry hotel over night, and his business here was to purchase the bay trotting mare, Judith Wilkes, 2:15 1/4, owned by Geo. McCrea, of this city. However, after considerable negotiating with Mr. McCrea, he failed in his mission and returned home.

"There was only \$25 between us," said General Sherwood in discussing his failure to purchase the fine animal of Mr. McCrea.

General Sherwood was in this city four days during the encampment, and met a large number of local citizens while here. He is congressman from the Ninth Ohio district, and is one of the best friends of the G. A. R. in the National capital.

A few weeks ago Congressman Sherwood, on the floor of the House,

advocated intervention in Mexico by the world powers instead of by America alone. He talked freely on the Mexican situation while here, and said in part:

"It is a pretty hard proposition to solve, and just what plan to pursue for the most speedy settlement of the trouble is hard to say, but I am in favor of any method that is best to end the trouble. It is safe to say that if intervention takes place, both the Federals and Constitutionalists will unite to thwart the move of the United States."

"The exact meaning of the Monroe Doctrine is somewhat difficult to figure out at this age," said General Sherwood in regard to his stand regarding the famous doctrine. "The Venezuelan trouble and other acts of the United States since the doctrine went into effect, has wrought some changes, and if it is best that foreign powers assist in settling the squabble in Mexico, then I am in favor of that, regardless of the Monroe Doctrine."

General Sherwood is also of the opinion that there is no significance to be attached to the sending of another warship to the Mexican coast by Japan.

Regarding the Japanese trouble in California, he stated that the controversy was by no means ended, and that the Japanese were possessed of no mean statesmanship.

He leaves for Washington, D. C., next Tuesday, to take up his duties in Congress.

YOUNG WOMAN NEARLY DROWNS

Miss Nellie Fogle, daughter of Will Fogle, nearly met death by drowning Thursday afternoon, while fishing on Paint creek at Flakes' Ford, near Rock Mills.

Miss Fogle, in company with a party of others, was enjoying the fishing, when the bank upon which Miss Fogle was standing, crumbled beneath her feet and precipitated her into deep water.

The young woman screamed for help, but would have drowned had not her uncle, Harry Fogle, plunged into the chilly water and saved her as she was going down the last time.

She was quickly revived and suffered little from the unceremonious plunge into the cold water.

MOVES MACHINERY FROM FORMER PLANT

All of the machinery formerly used in the Samuel Evans plant at Hillsboro, has been shipped to this city, and may eventually be installed in the local veneering plant owned by Mr. Evans, and located on Sycamore street.

If business continues good Mr. Evans contemplates the doubling of his force at the local plant and will thus be enabled to materially increase the output of the factory.

TITANIC IS AGAIN SUBJECT OF INTEREST

By Associated Press.

New York City, November 21.—Charges that the Titanic was not seaworthy were presented to the Federal District court today in proceedings to determine the liability of owners to the heirs of those who lost their lives in the disaster. These claims aggregate \$17,000,000 and if the courts should determine that the liner was not properly constructed and equipped, it means that there would be practically no limit to the damages that might be demanded.

MANAGERS CHOSEN FOR NEW CONCERN

At a meeting of those interested in the co-operative grocery company to be launched in this city, C. A. Crooks and Noah Carr were Thursday night chosen managers of the concern.

The company, which is incorporated for \$10,000, has decided to issue 1000 shares of stock at \$10 per share, and it is claimed that several hundred shares have already been disposed of.

The new managers are now seeking a good location for the enterprise, and expect to open for business before the elapse of many weeks.

BAD CHARACTERS MAY COME HERE

A general exodus of bad characters is taking place at Dayton, and this city is liable to pick up some of the "undesirables" within the next few weeks.

A general round-up of the bad colored men who have infested the Gem City in large numbers, is being made under the new order of things in Dayton, and the bad characters are having their choice of paying a stiff fine and serving a work house sentence, or leaving Dayton, and they are leaving.

PRICES OF OIL BREAK RECORDS

By Associated Press.

Findlay, Ohio, Nov.—21.—The Ohio Oil Company today gave the price of oil it is purchasing a record price when it boosted five grades five cents per barrel, making Illinois and Princeton \$1.45, North Lima \$1.49 and South Lima and Indiana \$1.44.

DYNAMITE UNINJURED

By Associated Press.

Bellaire, Ohio, November 21.—A car carrying 12 foreign miners collided with a car hauling 250 pounds of dynamite near here today. Both cars left the rails. All the men were injured, 6 fatally. The dynamite did not explode.

FLORIDA LAND MEN INDICTED

Kansas City, Mo., Nov. 21.—R. J. Martin and J. H. Borders, agents of the Florida Land company, with six other company agents, were indicted by the federal grand jury on charges of conspiracy to use the mails to defraud in connection with the sale of 180,000 acres of land in the Everglades district of Florida. Judge A. S. Van Valkenburgh set bond at \$5,000 each, which Borders and Martin gave.

The other indicted men were not present. They are: Richard J. Bolles, millionaire, of Jacksonville, Fla.; George A. Paddock, Chicago; Jesse L. Billingsly, Jacksonville, Fla., and John Mathews, Edward C. Chambers and A. D. Hart of Kansas City. Each was indicted on 21 counts. The case had been before the grand jury nearly two weeks.

The Florida Fruit Lands company, organized four years ago by R. J. Bolles, is said to control nearly 500,000 acres of land in the Everglades. It is alleged that 180,000 acres were placed in the hands of Robert J. Martin and Joseph M. Borders, sales agents in Kansas City, and by them sold in small tracts to 12,000 persons. Sales were made in other states, many persons in Ohio being the purchasers.

The grand jury investigation was undertaken at the behest of small purchasers, who were dissatisfied with drainage conditions on their tracts. It was said that more than \$2,000,000 was involved in the sales contracts and that more than \$700,000 already has been paid to the company. Some of the purchasers said their tracts were entirely under water and could only be reached by boat. Company agents asserted that the state of Florida was under contract to drain the tracts and that canals soon were to be dug and the land put in condition for cultivation.

An unusual incident of the investigation was the formal petition of Herbert S. Hadley, former governor of Missouri and attorney for some of the officials of the land company, for leave to introduce certain witnesses before the grand jury. The petition charged that Sylvester R. Rush, assistant attorney general, was refusing to admit certain witnesses who, he believed, would testify in the company's favor. Federal Judge Frank Youmans denied the petition on the ground that to do otherwise would upset the entire system of federal grand jury investigations.

SEVENTY-FIVE WOMEN MEMBERS

The new physical culture class for women met at the K. of P. building Thursday night for the first instruction and for complete organization.

Fully seventy-five women have entered the class, and are very enthusiastic over the work.

To accommodate those who find it inconvenient to attend the night classes, an afternoon class was organized, and will meet Tuesday and Thursday afternoons of each week, from 4 to 5 o'clock, while the night class will meet every Monday and Thursday evening from 7:30 to 8:30.

New members are being added to the classes each day, and indications are that before the new year opens the class will exceed 100.

MUST SHAKE TOLEDO

Toledo, O., Nov. 21.—Safeblowers, burglars, robbers, pickpockets and others of the criminal class who have made Toledo their headquarters, must clear out, and the present police force is to boss the job. Those were the statements Wednesday of Mayor-elect Keller.

"This city now bears the unenviable reputation of being a harboring place for crooks," said the Mayor-elect.

"I intend to have a thorough clean-up of the town so that it may be a safe place in which to live, and that hereafter our police department will not have to bear the stigma of being charged with affording protection to law-breaking men. The condition is known to exist now in neighboring counties, officers from which, I am told, do not now ask Toledo assistance in running down men wanted for violation of law outside the city. That continues a blight upon our city's name."

The Mayor-elect was explicit in

his statement, though, that the present police force will be required to do the job. "I have no fault to find with the rank and file of the department," said Mr. Keller. "The fact is, I think the majority of the men in the ranks are good officers, and I have no intention of disturbing them. Whatever may have been their attitude toward me before the election does not matter at all. I see no reason why men in the ranks should be nervous about holding their positions. Politics will not enter into those departments of the city service."

The Pencil of the Cartoonist a Political Weapon

That the cartoon weilds an immense amount of power; that it has been responsible for biased views, for cleverly disguised suggestions, and has become a force to be reckoned with, cannot be denied.

The claim is now being made that lampooning cartoonists who find nothing sacred, are largely responsible for present conditions in Mexico. According to an exceedingly interesting article by Harry H. Dunn, in the December Cartoons magazine, the present bitter anti-American sentiment has been created by Mexican cartoonists.

If Mr. Dunn, who was recently news editor of two papers in Mexico City, is to be believed, the cartoonists of the Mexican press have poisoned the minds of the common people against America.

Eighty-five per cent of the Mexican people cannot read, but every one of them has been fed for months with inflammatory cartoons which even the illiterate can understand.

Therein lies the power of the cartoonist and it is a very real power.

Two cartoons which went broadcast over Mexico, according to Mr. Dunn, did more to inflame the Mexicans against America than any others. The first represented President Wilson, a crown on his head, standing in the middle of a polished floor, his hands extended over a group of Mexicans, former friends of Madero, who constitute the rebel lobby and press bureau in the United States. All were shown kneeling before President Wilson. The cartoon was labeled "The Obeisance of the Traitors."

The second cartoon showed a huge dragon, clad in the starry coat and striped trousers of Uncle Sam, and bearing the characteristic head of that mythical personage, taking a bite out of Mexico. On the dragon's back stood Huerta, in his upraised right hand the flaming sword of national dignity, on his left arm the shield of national sovereignty. Over the cartoon was the single line "Against the Devourers." Beneath, "There is no need for fear or fright of so rare a beast, but if it annoys us, there is yet a St. George (Huerta) who is no Saint."

A nation better educated, or less hot headed, might have laughed at this cartoon. Not so with Mexicans. They took the allegorical drawing as truth; in every town huge posters bearing the cartoons were put up in the public plaza and on municipal buildings.

The situation is worthy of consideration, and Mexicans of the upper class believe it has proven the pen mightier than the sword, and that these cartoons, scattered by thousands throughout the length and breadth of Mexico, have played a big part in inciting all Mexicans against the United States.

Mr. Dunn is convinced that the pencils of the Mexican cartoonists are the most powerful political weapons in Mexico today, and that Huerta has been using them craftily to his own ends.

From this viewpoint the average Mexican, who formerly merely hated the United States, today holds this nation in contempt and scorns President Wilson as a pusillanimous coward. This is what cartoons have accomplished in a few months.

New York Physician, With a Wealthy Wife, Commits Suicide.

New London, Conn., Nov. 21.—Dr. Horace H. Tinker, 55, a physician of New York city, where his very wealthy wife is living, died at his summer home here from the effects of a mysterious poison which, it was learned from the medical examiner, he took in the form of numerous hypodermic injections in his arms and legs. He had been living in his big summer home for several weeks, alone except for his chauffeur, who discovered him in a dying condition. Among his effects on his dressing table the police found a letter in which he announced his intention of quitting this world and giving specific instructions to the coroner, should that official decide to hold an inquest.

Poetry For Today

WE TWO.

We two make home of any place we go;
We two find joy in any kind of weather;
Or if the earth is clothed in bloom or snow,
If summer days invite, or bleak winds blow,
What matters it if we two are together?
We two, we two, we make our world, our weather.

We two make banquets of the plainest fare;
In every cup we find the thrill of pleasure;
We hide with wreaths the furrowed brow of care
And win to smiles the set lips of despair.
For us life always moves with lifting measure;
We two, we two, we make our world, our pleasure.

We two find youth renewed with every dawn;
Each day holds something of an unknown glory.
We waste no thought on grief or pleasure gone;
Tricked out like hope, time leads us on and on,
And thrums upon his harp new song or story.
We two, we two, we find the paths of glory.

—Ella Wheeler Wilcox.

INVADING THE WHITE HOUSE

Elaborate Preparations Being Made For the Wedding.

Washington, Nov. 21. — Francis Bowes Sayre, bridegroom-elect of Miss Jessie Woodrow Wilson, arrived at the White House, where he will be a guest until Monday. His arrival marks the final stage of the wedding preparations. Monday Mr. Sayre, following the old custom, will withdraw from the White House and be a guest of Charles E. Hughes, Jr., son of Associate Justice Hughes.

Within the White House the decorators put in their appearance and began the construction of the 12-foot square dais upon which the wedding party will stand during the ceremony. There are among the ushers no military men or naval officers, and the wedding is regarded by the president's household as nearly a home wedding as it will be possible.

Miss Wilson received her \$2,000 present from the house of representatives. It is a sparkling diamond pendant. Secretary Bryan's gift is an inlaid mahogany tea table and chair.

Don't Dope a Puny Child

Parents—don't give that puny, ailing, under-weight child any of those so-called "tonics" containing alcohol or dangerous drugs; such stuff won't give relief and health to grown people, let alone children. Its purpose is to stimulate for a short time after each dose, just as whiskey or morphine does, thus making you believe it is doing real good.

Give that child something that will really build it up—replenish the wasted tissues—feed the stunted, dwarfed, puny muscles—make it lively, strong, well—full of the animal spirits children are meant by nature to have. Give it Rexall Olive Oil Emulsion.

Rexall Olive Oil Emulsion is wholesome, nourishing, free from alcohol and dangerous drugs. It's the ideal nerve, blood and body builder. It does the work it is planned to do better than any other medicine we know of, and our faith in it is so great that we not only urge you to use it and give it to your children—but we guarantee that it will do all we say it will, or cost you nothing.

Rexall Olive Emulsion should be given to children who catch cold easily. Begin right now, and use it to build up the child's system to such strong health that it can resist colds, croup, grippe, bronchitis, catarrh, pneumonia, and other cold weather diseases. You who are weak and run down, and you who are well now, but are liable to suffer from various cold weather ailments, use Rexall Olive Oil Emulsion to get and keep well and strong. For the tired-out, run-down, nervous, emaciated or debilitated—the convalescing—growing children—aged people—it is a sensible aid to renewed strength, better spirits, glowing health.

THREE MOOSERS NAMED BY COX

Columbus, O., Nov. 21. — Governor Cox announced appointments of county tax assessors in 19 counties. Five of these counties are populous enough to have two assessors, and in three of them the minority places were given Progressives. The exceptions were Hamilton and Jefferson counties, in which Republicans were named. In Hamilton county Governor Cox made a personal appointment, conferring it on Charles L. Doran, who gave the governor his first newspaper job.

ECONOMY

BY THE AD WRITER OF THE BUCKEYE STATE BUILDING AND LOAN COMPANY, RANKIN BUILDING, 22 W. GAY ST., COLUMBUS, O.

Fourth. Economy provides comforts for old age. The spendthrift has a hard time of it all through life and particularly so in old age. It is very pleasant in the evening of life to know that you are not dependent on charity or your children. If you wish such comforts, save your money and deposit it in The Buckeye and get five per cent interest thereon. Assets \$6,700,000. Write for booklets.

THE IMPORTANCE OF GLASSES

Is often overlooked by many who subject themselves to headaches, nervousness, etc. which might readily be overcome by wearing properly fitted glasses.

WASHINGTON WILL PLAY GREENFIELD

The Washington High and the Greenfield High football teams will clash on the Greenfield field tomorrow afternoon, and while the Greenfielders are confident of winning the game, Washington is just as confident of carrying off the game by a good score.

A number of rooters will accompany the local team.

WHITE SLAVERY

On Sunday afternoon, November 23rd, Dr. George V. Reichel will address a mass meeting for men at the Empire Opera house at 3 o'clock, on the subject of "White Slavery."

Dr. Reichel, who is affiliated with the American Civic Reform union, and having charge of the legislative department of its work, is amply qualified to speak up this subject. He is an orator, a scholar and a polished gentleman. In the prosecution of his work he has been brought in close contact with men and women guilty of trafficking in human lives, and has seen results of their work, and has been instrumental in bringing to justice these vicious characters.

At the meeting on Sunday afternoon, it is expected that many fathers will be present to profit by this address.

Owing to the nature of the subject, no one under sixteen years of age will be admitted.

No admission is charged, and all our men are cordially invited to be present.

Gregg, Patton and Gregg represent the plaintiff.

PRAISE FIRM OF KATZ & WALLENSTEIN

Friday's Greenfield Republican contains the following article on the new store recently opened by Mr. Leo Katz in that town:

"Greenfield's new business enterprise, the Katz & Wallenstein store, is now fairly underway and presents an appearance of business and beauty that is good to see.

"The equipment is the last word in modern store furniture. The entire cabinet work being of golden oak with glass counters, etc., to correspond, and is designed with an eye to artistic beauty, harmony of color and business convenience. A notable and valuable feature of convenience is the display of all garments in cabinets—tables are dispensed with—and the stock is automatically kept in a uniform condition; every suit in both the ladies' and gentlemen's departments can be removed and shown a customer without disturbing other goods.

"The immense stock covers the widest selection in ladies, and gentlemen's wearing apparel, from the moderately priced to the best and latest, creations that the markets of the country afford and in every way makes good the excellent reputation that this firm enjoys in its many different establishments and which preceded them to Greenfield.

"Mr. Wallenstein, the resident manager, is a gentleman of courteous and genial personality and if you have not yet met him you have a pleasure coming.

"Mrs. C. K. Middleton, Miss Bessie Cohen and Mr. Walter Head have been engaged by the firm all of whom are experienced and courteous salespeople and need no introduction to our readers.

"The fixtures were designed and built by the W. W. W. Co., of this city."

In Social Circles MISS FLORENCE USTICK, SOCIETY EDITOR

Mr. and Mrs. Frank E. Haines, of the Creek road entertained Thursday with an elaborate four-course dinner one of a series with which they have been entertaining this winter.

A wealth of flowers, roses, chrysanthemums and greenery suggested summer indoors, as the beautiful, golden day suggested it outside.

Splendid shaggy yellow chrysanthemums graced the center of the table and yellow tints were introduced in the different courses. The place cards were prettily suggestive of Thanksgiving.

The table was laid with twelve covers, and seated with the host and hostess were Mr. and Mrs. Robert Howat, Mr. and Mrs. T. H. Craig, Mr. and Mrs. Val McCoy, Mrs. Elmer Cockerill, of Greenfield, Miss Daisy Cockerill and Miss Ivah Haines.

Mrs. Ben Jamison was given a complete surprise Thursday evening by a number of her friends and neighbors in compliment to her birthday. The guests brought baskets filled with delicious viands for a picnic supper and the evening was one of great pleasure.

The Cecilians, Washington's well known musical club, will celebrate their twenty-fifth anniversary on Tuesday, December 2nd, by giving a recital at the home of Mrs. D. S. Craig.

The talented artists of this club are preparing a very beautiful program.

Oh! You Have Such Beautiful Hair!

What a pleasant thing to have said to you! And why shouldn't it be? You who envy others their lovely hair, and are ashamed of the dull, lifeless, stringy appearance of your own—use Harmony Hair Beautifier, and let others envy you.

This delightful liquid seems to polish and brighten the hair, giving it that burnished, lustrous look you have so often wished it might have, adding to its softness, making it easier to put up and "stay put"—making it more attractive and beautiful in every way. It overcomes the unpleasant, oily smell of your hair, leaving a dainty, rich rose perfume that will delight you and those around you. Very easy to apply—simply sprinkle a little on your hair each time before brushing. Contains no oil; will not change the color of hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Can't harm the hair; leaves no harshness or stickiness—just a sweet cleanliness. Both preparations come in odd-shaped, very ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, \$1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made. Twenty-five years ago a lad planned and formed in his childish mind a scheme to operate a chain or syndicate of five or more stores thru the glorious state of Ohio. Never has this youth or man wavered, not for a single moment has he taken from his mind's eye that picture called success—thru panic and prosperity, rain and sunshine, winter and summer, he has striven for that goal—To be a leader among merchants. Never forgetful of the fact that the support and good will of the people was the one and only avenue by which success could be attained.

LICENSE LAW WILL STICK

Test Case at Youngstown Decided
In Favor of the State.

COURT REFUSES INJUNCTIONS

Saloons Refused Licenses Told
That the Remedy For Them is by
Contest Before the State License
Board—New Act Attacked in Cleve-
land and Other Places—Cincinnati
Officials to Enforce Law.

Youngstown, O., Nov. 21.—Decisions
in the first cases passed upon in the
courts of the state in connection with
the new liquor license law upheld the
act, Judges Robinson and Barnum of
the common pleas court refusing in-
junctions against the license board
here.

In the case of Frank Canconica, an
Italian saloonkeeper, who claimed
that his treaty rights had been vio-
lated, the court held that a foreigner
has no inalienable right to engage in
the saloon business, since, under the
law of the state, a citizen has no in-
alienable right. The court in this
case, as well as in the injunction
cases of James McGuirk and Richard
Gilmartin, who sought to enjoin the
granting of licenses to successful ap-
plicants, held that the remedy for
them is by contest before the state
license board. The complainants will
now submit the matter to the state
board.

A practical agreement had been
reached to test the validity of the law
in Mahoning county. P. E. Dempsey
of the attorney general's office and
John J. Boyle of this city represent-
ed the state and D. P. Anderson and
Kistler & Oesch the other side.

ASK INJUNCTION

Cleveland, O., Nov. 21.—Filing of a
suit to enjoin the Cuyahoga county
liquor license commission from issu-
ing licenses to corporations and
firms, and the refusal of the commis-
sioners to give licenses to 22 saloons
included in the original list of suc-
cessful applicants, were the principal
developments in the liquor license
row here. The suit for injunction was
filed in the common pleas court, after
more than 500 licenses had been
given out by the board. Attorney
Thomas E. Greene, who filed the suit
in behalf of the saloonkeepers, de-
clared that the asking for the injunc-
tion was the first move in a fight to
prevent the operation of the liquor li-
cense law.

DRYS ENJOIN

Springfield, O., Nov. 21.—The first
injunction against the granting of
liquor licenses to a saloonkeeper un-
der the new license law was obtained
in the common pleas court here when
suit was brought in the name of the
state of Ohio, against the local liquor
commissioners, to restrain them from
issuing licenses to seven saloonkeep-
ers in the northeast section of Spring-
field. The action is backed by repre-
sentatives of the Anti-Saloon league,
who claim that the seven saloons are
in dry territory.

HUNT WEAKENS

Cincinnati, O., Nov. 21.—It was
stated at the city hall that the city
administration will, in all probability,
not ignore the new license law, and
that steps will be taken to enforce
the section providing for the closing
of all saloons which have not been
granted licenses. Mayor Hunt said
he had not made up his mind when
he would go to Columbus to see the
governor about the license question,
or whether he would go at all.

CLASH AT PROBE

Cincinnati, O., Nov. 21.—The in-
vestigation of the Ohio civil service
board into the conduct of the local
board was enlivened when Edward
Anthony, a reporter, threatened City
Solicitor Alfred Bettman, who, An-
thony charged, had brought his own
name into the investigation without
cause. Before he was quieted by
friends Anthony had threatened to
kill Bettman.

SPONGERS OUT

New York Clothing Factories Facing
Serious Situation.

New York, Nov. 21.—A number of
garment workers have been laid off
temporarily in some of the clothing
factories on account of the scarcity
of shrunken cloth, through the strike
of the members of the clothes exam-
iners and spongers' union for higher
wages and the eight-hour workday. It
is admitted by some of the employers
that the strike, if it lasts a day or
two longer, will bring about a serious
condition in the clothing factories all
over New York.

EXPECTS HOME RULE

New Porto Rican Governor Discour-
ages Independence Idea.

San Juan, P. R., Nov. 21.—In his
inaugural address, Dr. Arthur Yager,
the new governor of Porto Rico, said
that he believed that as the Demo-
cratic party is in control of congress,
the Porto Ricans may expect a mea-
sure giving them a larger share in the
government of their own country
than they have had. He discouraged
all idea of seeking the independence
of the island.

LUMPS OF TROUBLE

Springfield, O., Nov. 21.—While on
the witness stand testifying in her
own behalf, Mrs. Rilla Fillingier was
suddenly stricken with apoplexy. She
was rushed to the hospital. She is
charged with shooting to kill her hus-
band. Three weeks ago her home
burned.

HUNTER DEAD

Woodsfield, O., Nov. 21.—Clarence
Gray, 19, was killed while rabbit hunt-
ing. He was found lying in a field,
the top of his head having been
blown off. It is believed that the gun
was accidentally discharged when he

CORN BOYS' SPECIAL WILL PASS THROUGH WASHINGTON

Monday evening, December 1st, at about 7:00 o'clock, one of the Ohio Corn Boys' special trains will pass through this city on the Pennsylvania railroad, picking up the corn boys along the road, and also any of their friends who wish to go and who will deposit a check for \$60 with Treasurer Riddle, of Lima, before November 28th.

The special which will pass through here will contain a number of the finest coaches the Pennsylvania road owns, and the train will be in charge of "Col." Lester S. Ivins, Supervisor of Agriculture Education, Department of State School Commis-

A large crowd is expected to assemble in this city to see the "Buck-eye Corn Boys' Special" go through.

Harry Hill, proprietor of the Hill Wild West Show which has wintered here the past two years, has purchased the 206 acre farm of Frank Parrett and Dan VanWinkle, in Brown county, and will spend the winter upon his farm hereafter.

The farm is said to be one of the best improved in that part of the country, and has several large barns upon it which will afford ample winter quarters for the horses and cattle carried with the show.

Hart Shaffner & Marx clothes

ANYWHERE you go, where you see a group of well dressed folks, you'll probably see several Hart Shaffner & Marx overcoats; and they're not "all alike" either.

Variety of models, lots of different new things, and all good—that describes our overcoat stock. For the older and more conservative dresser, we have the quieter types, dignified and dressy. For the young men who seek the snappy, ultry models, extreme styles, we have plenty of the latest things. For young women who like the "men's overcoat" idea, we have many good things.

Glad to show you any of them

PLEASANT SURPRISE DEAD MAN RETURNS

Hamilton, Ont., Nov. 21.—After all preparations had been made for his burial and his supposed body had been identified at Goderich by his father and his sisters as one of the men who lost their lives on the steamer James Carruthers, John Thompson walked into his home here. Thompson explained that he had decided at the last minute not to sail on the ill-fated Carruthers. The unidentified body will be sent back to Goderich.

SPLIT IS FEARED

Washington, Nov. 21.—Monopolistic control of water power in private hands was denounced, with a declaration that no water power rights owned by the public ever should be removed from public ownership, by the National Conservation congress, which adjourned here. A split in the organization over states' rights is feared. Charles L. Pack of Lakewood, N. J., was elected president of the congress.

VOTE WAS A TIE; VILLAGE MAYORLESS.

SKIN ERUPTIONS

Evidence of Impure Blood and a Run-Down Condition.

When the blood becomes thin, poor devitalized nature cries out through such external evidence for help, and the safest, surest and most helpful remedy we know is Vinol.

This is because it is a combination of the two most world famed tonics—the medicinal curative elements of cod liver oil (without the oil) and tonic iron for the blood. Vinol strengthens the digestive organs, creates a hearty appetite, purifies and enriches the blood, creates strength.

Mrs. Helen Wingate, St. Louis, Mo., says: "I was in very poor health, nervous and run-down, and nothing in the way of medicine did me any good until my druggist recommended Vinol. It built up my health, restored strength and I feel that I owe my life to Vinol. I cannot praise it too highly."

We say positively there is nothing like Vinol to purify and enrich the blood and build up weak, run-down people. If it should fail in your case we will return your money. Blackmer & Tanquary.

FLORIDA LAND MEN INDICTED

Kansas City, Mo., Nov. 21.—R. J. Martin and J. H. Borders, agents of the Florida Land company, with six other company agents, were indicted by the federal grand jury on charges of conspiracy to use the mails to defraud in connection with the sale of 180,000 acres of land in the Everglades district of Florida. Judge A. S. Van Valkenburgh set bond at \$5,000 each, which Borders and Martin gave.

The other indicted men were not present. They are: Richard J. Bolles, millionaire, of Jacksonville, Fla.; George A. Paddock, Chicago; Jesse L. Billingsly, Jacksonville, Fla., and John Mathews, Edward C. Chambers and A. D. Hart of Kansas City. Each was indicted on 21 counts. The case had been before the grand jury nearly two weeks.

The Florida Fruit Lands company, organized four years ago by R. J. Bolles, is said to control nearly 500,000 acres of land in the Everglades. It is alleged that 180,000 acres were placed in the hands of Robert J. Martin and Joseph M. Borders, sales agents in Kansas City, and by them sold in small tracts to 12,000 persons. Sales were made in other states, many persons in Ohio being the purchasers.

The grand jury investigation was undertaken at the behest of small purchasers, who were dissatisfied with drainage conditions on their tracts. It was said that more than \$2,000,000 was involved in the sales contracts and that more than \$760,000 already has been paid to the company. Some of the purchasers said their tracts were entirely under water and could only be reached by boat. Company agents asserted that the state of Florida was under contract to drain the tracts and that canals soon were to be dug and the land put in condition for cultivation.

An unusual incident of the investigation was the formal petition of Herbert S. Hadley, former governor of Missouri and attorney for some of the officials of the land company, for leave to introduce certain witnesses before the grand jury. The petition charged that Sylvester R. Rush, assistant attorney general, was refusing to admit certain witnesses who, he believed, would testify in the company's favor. Federal Judge Frank Youmans denied the petition on the ground that to do otherwise would upset the entire system of federal grand jury investigations.

MUST SHAKE TOLEDO

Toledo, O., Nov. 21.—Safeblowers, burglars, robbers, pickpockets and others of the criminal class who have made Toledo their headquarters, must clear out, and the present police force is to boss the job. Those were the statements Wednesday of Mayor-elect Keller.

"This city now bears the unenviable reputation of being a harboring place for crooks," said the Mayor-elect.

"I intend to have a thorough clean-up of the town so that it may be a safe place in which to live, and that hereafter our police department will not have to bear the stigma of being charged with affording protection to law-breaking men. The condition is known to exist now in neighboring counties, officers from which, I am told, do not now ask Toledo assistance in running down men wanted for violation of law outside the city. That continues a blight upon our city's name."

The Mayor-elect was explicit in

his statement, though, that the present police force will be required to do the job. "I have no fault to find with the rank and file of the department," said Mr. Keller. "The fact is, I think the majority of the men in the ranks are good officers, and I have no intention of disturbing them. Whatever may have been their attitude toward me before the election does not matter at all. I see no reason why men in the ranks should be nervous about holding their positions. Politics will not enter into those departments of the city service."

The Pencil of the Cartoonist a Political Weapon

That the cartoon weilds an immense amount of power; that it has been responsible for biased views, for cleverly disguised suggestions, and has become a force to be reckoned with, cannot be denied.

The claim is now being made that lampooning cartoonists who find nothing sacred, are largely responsible for present conditions in Mexico. According to an exceedingly interesting article by Harry H. Dunn, in the December Cartoons magazine, the present bitter anti-American sentiment has been created by Mexican cartoonists.

If Mr. Dunn, who was recently news editor of two papers in Mexico City, is to be believed, the cartoonists of the Mexican press have poisoned the minds of the common people against America.

Eighty-five per cent of the Mexican people cannot read, but every one of them has been fed for months with inflammatory cartoons which even the illiterate can understand.

Therein lies the power of the cartoonist and it is a very real power.

Two cartoons which went broadcast over Mexico, according to Mr. Dunn, did more to inflame the Mexicans against America than any others. The first represented President Wilson, a crown on his head, standing in the middle of a polished floor, his hands extended over a group of Mexicans, former friends of Madero, who constitute the rebel lobby and press bureau in the United States. All were shown kneeling before President Wilson. The cartoon was labeled "The Obeisance of the Traitors."

The second cartoon showed a huge dragon, clad in the starry coat and striped trousers of Uncle Sam, and bearing the characteristic head of that mythical personage, taking a bite out of Mexico. On the dragon's back stood Huerta, in his upraised right hand the flaming sword of national dignity, on his left arm the shield of national sovereignty. Over the cartoon was the single line "Against the Devourers." Beneath, "There is no need for fear or fright of so rare a beast, but if it annoys us, there is yet a St. George (Huerta) who is no Saint."

A nation better educated, or less hot headed, might have laughed at this cartoon. Not so with Mexicans. They took the allegorical drawing as truth; in every town huge posters bearing the cartoons were put up in the public plaza and on municipal buildings.

The situation is worthy of consideration, and Mexicans of the upper class believe it has proven the pen mightier than the sword, and that these cartoons, scattered by thousands throughout the length and breadth of Mexico, have played a big part in inciting all Mexicans against the United States.

Mr. Dunn is convinced that the pencils of the Mexican cartoonists are the most powerful political weapons in Mexico today, and that Huerta has been using them craftily to his own ends.

From this viewpoint the average Mexican, who formerly merely hated the United States, today holds this nation in contempt and scorns President Wilson as a pusillanimous coward.

This is what cartoons have accomplished in a few months.

Poetry For Today

WE TWO.

We two make home of any place we go;
We two find joy in any kind of weather;
Or if the earth is clothed in bloom or snow,
If summer days invite, or bleak winds blow,
What matters it if we two are together?
We two, we two, we make our world, our weather.

We two make banquets of the plainest fare;
In every cup we find the thrill of pleasure;
We hide with wreaths the furrowed brow of care
And win to smiles the set lips of despair.
For us life always moves with lilt-ing measure;
We two, we two, we make our world, our pleasure.

We two find youth renewed with every dawn;
Each day holds something of an unknown glory.
We waste no thought on grief or pleasure gone;
Tricked out, like hope, time leads us on and on,
And thrums upon his harp new song or story.
We two, we two, we find the paths of glory.

—Ella Wheeler Wilcox.

Don't Dope a Puny Child

Parents—don't give that puny, ailing, under-weight child any of those so-called "tonics" containing alcohol or dangerous drugs; such stuff won't give relief and health to grown people, let alone children. Its purpose is to stimulate for a short time after each dose, just as whiskey or morphine does, thus making you believe it is doing real good.

Give that child something that will really build it up—replenish the wasted tissues—feed the stunted, dwarfed, puny muscles—make it lively, strong, well—full of the animal spirits children are meant by nature to have. Give it Rexall Olive Oil Emulsion.

Rexall Olive Oil Emulsion is wholesome, nourishing, free from alcohol and dangerous drugs. It's the ideal nerve, blood and body builder. It does the work it is planned to do better than any other medicine we know of, and our faith in it is so great that we not only urge you to use it and give it to your children—but we guarantee that it will do all we say it will, or cost you nothing. Rexall Olive Emulsion should be given to children who catch cold easily. Begin right now, and use it to build up the child's system to such strong health that it can resist colds, croup, grippe, bronchitis, catarrh, pneumonia, and other cold weather diseases. You who are weak and run down, and you who are well now, but are liable to suffer from various cold weather ailments, use Rexall Olive Oil Emulsion to get and keep well and strong. For the tired-out, run-down, nervous, emaciated or debilitated—the convalescing—growing children—aged people—it is a sensible aid to renewed strength, better spirits, glowing health.

Rexall Olive Oil Emulsion—king of the celebrated Rexall Remedies—is for freedom from sickness of you and your family. You'll be as enthusiastic about it as we are when you have noted its pleasant taste, its strengthening, invigorating, building-up, disease-preventing effects. It it does not help you, your money will be given back to you without argument. Sold in this community only at our store—The Rexall Store—one of more than 7000 leading drug stores in the United States, Canada and Great Britain. Blackmer & Tanquary. Advt.

LEFT INSTRUCTIONS IN NOTE TO CORONER

New York Physician, With a Wealthy Wife, Commits Suicide.

New London, Conn., Nov. 21.—Dr. Horace H. Tinker, 55, a physician of New York city, where his very wealthy wife is living, died at his summer home here from the effects of a mysterious poison which, it was learned from the medical examiner, he took in the form of numerous hypodermic injections in his arms and legs. He had been living in his big summer home for several weeks, alone except for his chauffeur, who discovered him in a dying condition. Among his effects on his dressing table the police found a letter in which he announced his intention of quitting this world and giving specific instructions to the coroner, should that official decide to hold an inquest.

INVADING THE WHITE HOUSE

Elaborate Preparations Being Made For the Wedding.

Washington, Nov. 21. — Francis Bowes Sayre, bridegroom-elect of Miss Jessie Woodrow Wilson, arrived at the White House, where he will be a guest until Monday. His arrival marks the final stage of the wedding preparations. Monday Mr. Sayre, following the old custom, will withdraw from the White House and be a guest of Charles E. Hughes, Jr., son of Associate Justice Hughes.

Within the White House the decorators put in their appearance and began the construction of the 12-foot square dais upon which the wedding party will stand during the ceremony. There are among the ushers no military men or naval officers, and the wedding is regarded by the president's household as nearly a home wedding as it will be possible.

Miss Wilson received her \$2,000 present from the house of representatives. It is a sparkling diamond pendant. Secretary Bryan's gift is an inlaid mahogany tea table and chair.

WHITE SLAVERY

On Sunday afternoon, November 23rd, Dr. George V. Reichel will address a mass meeting for men at the Empire Opera house at 3 o'clock, on the subject of "White Slavery."

Dr. Reichel, who is affiliated with the American Civic Reform union, and having charge of the legislative department of its work, is amply qualified to speak up this subject. He is an orator, a scholar and a polished gentleman. In the prosecution

tion of his work he has been brought in close contact with men and women guilty of trafficking in human lives, and has seen results of their work, and has been instrumental in bringing to justice these vicious characters.

At the meeting on Sunday afternoon, it is expected that many fathers will be present to profit by this address.

Owing to the nature of the subject, no one under sixteen years of age will be admitted.

No admission is charged, and all our men are cordially invited to be present.

PRAISE FIRM OF KATZ & WALLENSTEIN

Friday's Greenfield Republican contains the following article on the new store recently opened by Mr. Leo Katz in that town:

"Greenfield's new business enterprise, the Katz & Wallenstein store, is now fairly underway and presents an appearance of business and beauty that is good to see.

"The equipment is the last word in modern store furniture. The entire cabinet work being of golden oak with glass counters, etc., to correspond, and is designed with an eye to artistic beauty, harmony of color and business convenience. A notable and valuable feature of convenience is the display of all garments in cabinets—tables are dispensed with—and the stock is automatically kept in a uniform condition; every suit in both the ladies' and gentlemen's departments can be removed and shown a customer without disturbing other goods.

"The immense stock covers the widest selection in ladies, and gentlemen's wearing apparel, from the moderately priced to the best and latest creations that the markets of the country afford and in every way makes good the excellent reputation that this firm enjoys in its many different establishments and which preceded them to Greenfield.

"Mr. Wallenstein, the resident manager, is a gentleman of courteous and genial personality and if you have not yet met him you have a pleasure coming.

"Mrs. C. K. Middleton, Miss Bessie Cohen and Mr. Walter Head have been engaged by the firm all of whom are experienced and courteous salespeople and need no introduction to our readers.

"The fixtures were designed and built by the W. W. W. Co., of this city."

MISS FLORENCE USTICK, SOCIETY EDITOR

Mr. and Mrs. Frank E. Haines, of the Creek road entertained Thursday with an elaborate four-course dinner one of a series with which they have been entertaining this winter.

A wealth of flowers, roses, chrysanthemums and greenery suggested summer indoors, as the beautiful, golden day suggested it outside.

Splendid shaggy yellow chrysanthemums graced the center of the table and yellow tints were introduced in the different courses. The place cards were prettily suggestive of Thanksgiving.

The table was laid with twelve covers, and seated with the host and hostess were Mr. and Mrs. Robert Howat, Mr. and Mrs. T. H. Craig, Mr. and Mrs. Val McCoy, Mrs. Elmer Cockerill, of Greenfield, Miss Daisy Cockerill and Miss Ivah Haines.

Mrs. Orme Brown assisted Mrs. Hetteshelmer in serving the supper.

Twenty-five years ago a lad planned and formed in his childish mind a scheme to operate a chain or syndicate of five or more stores thru the glorious state of Ohio. Never has this youth or man wavered, not for a single moment has he taken from his mind's eye that picture called success—thru panic and prosperity, rain and sunshine, winter and summer, he has striven for that goal—To be a leader among merchants. Never forgetful of the fact that the support and good will of the people was the one and only avenue by which success could be attained.

LICENSE LAW WILL STICK

Test Case at Youngstown Decided In Favor of the State.

COURT REFUSES INJUNCTIONS

Saloonists Refused Licenses Told That the Remedy For Them is by Contest Before the State License Board—New Act Attacked in Cleveland and Other Places—Cincinnati Officials to Enforce Law.

Youngstown, O., Nov. 21.—Decisions in the first cases passed upon in the courts of the state in connection with the new liquor license law upheld the act, Judges Robinson and Barnum of the common pleas court refusing injunctions against the license board here.

In the case of Frank Canconica, an Italian saloonkeeper, who claimed that his treaty rights had been violated, the court held that a foreigner has no inalienable right to engage in the saloon business, since, under the law of the state, a citizen has no inalienable right. The court in this case, as well as in the injunction cases of James McGuirk and Richard Gilmartin, who sought to enjoin the granting of licenses to successful applicants, held that the remedy for them is by contest before the state license board. The complainants will now submit the matter to the state board.

A practical agreement had been reached to test the validity of the law in Mahoning county. P. E. Dempsey of the attorney general's office and John J. Boyle of this city represented the state and D. F. Anderson and Kistler & Oesch the other side.

ASK INJUNCTION

Cleveland, O., Nov. 21.—Filing of a suit to enjoin the Cuyahoga county liquor license commission from issuing licenses to corporations and firms, and the refusal of the commissioners to give licenses to 22 saloons included in the original list of successful applicants, were the principal developments in the liquor license row here. The suit for injunction was filed in the common pleas court, after more than 500 licenses had been given out by the board. Attorney Thomas E. Greene, who filed the suit in behalf of the saloonkeepers, declared that the asking for the injunction was the first move in a fight to prevent the operation of the liquor license law.

DRYS ENJOIN

Springfield, O., Nov. 21.—The first injunction against the granting of liquor licenses to a saloonkeeper under the new license law was obtained in the common pleas court here when suit was brought in the name of the state of Ohio, against the local liquor commissioners, to restrain them from issuing licenses to seven saloonkeepers in the northeast section of Springfield. The action is backed by representatives of the Anti-Saloon league, who claim that the seven saloons are in dry territory.

HUNT WEAKENS

Cincinnati, O., Nov. 21.—It was stated at the city hall that the city administration will, in all probability, not ignore the new license law, and that steps will be taken to enforce the section providing for the closing of all saloons which have not been granted licenses. Mayor Hunt said he had not made up his mind when he would go to Columbus to see the governor about the license question, or whether he would go at all.

CLASH AT PROBE

Cincinnati, O., Nov. 21.—The investigation of the Ohio civil service board into the conduct of the local board was enlivened when Edward Anthony, a reporter, threatened City Solicitor Alfred Bettman, who, Anthony charged, had brought his own name into the investigation without cause. Before he was quieted by friends Anthony had threatened to kill Bettman.

SPONGERS OUT

New York Clothing Factories Facing Serious Situation.

New York, Nov. 21.—A number of garment workers have been laid off temporarily in some of the clothing factories on account of the scarcity of shrunken cloth, through the strike of the members of the clothes examiners and spongers' union for higher wages and the eight-hour workday. It is admitted by some of the employers that the strike, if it lasts a day or two longer, will bring about a serious condition in the clothing factories all over New York.

EXPECTS HOME RULE

New Porto Rican Governor Discourages Independence Idea.

San Juan, P. R., Nov. 21.—In his inaugural address, Dr. Arthur Yager, the new governor of Porto Rico, said that he believed that as the Democratic party is in control of congress, the Porto Ricans may expect a measure giving them a larger share in the government of their own country than they have had. He discouraged all idea of seeking the independence of the island.

ANYWHERE you go, where you see a group of well dressed folks, you'll probably see several Hart Shaffner & Marx overcoats; and they're not "all alike" either.

Variety of models, lots of different new things, and all good—that describes our overcoat stock. For the older and more conservative dresser, we have the quieter types, dignified and dressy. For the young men who seek the snappy, ultry models, extreme styles, we have plenty of the latest things. For young women who like the "men's overcoat" idea, we have many good things.

PLEASANT SURPRISE DEAD MAN RETURNS

Hamilton, Ont., Nov. 21.—After all preparations had been made for his burial and his supposed body had been identified at Goderich by his father and his sisters as one of the men who lost their lives on the steamer James Carruthers, John Thompson walked into his home here. Thompson explained that he had decided at the last minute not to sail on the ill-fated Carruthers. The unidentified body will be sent back to Goderich.

SPLIT IS FEARED

Washington, Nov. 21.—Monopolistic control of water power in private hands was denounced, with a declaration that no water power rights owned by the public ever should be removed from public ownership, by the National Conservation congress, which adjourned here. A split in the organization over states' rights is feared. Charles L. Pack of Lakewood, N. J. was elected president of the congress.

VOTE WAS A TIE; VILLAGE MAYORLESS.

SKIN ERUPTIONS

Evidence of Impure Blood and a Run-Down Condition.

When the blood becomes thin, poor devitalized nature cries out through such external evidence for help, and the safest, surest and most helpful remedy we know is Vinol.

This is because it is a combination of the two most world famed tonics—the medicinal curative elements of cod liver oil (without the oil) and tonic iron for the blood, vinol strengthens the digestive organs, creates a hearty appetite, purifies and enriches the blood, creates strength.

Mrs. Helen Wingate, St. Louis, Mo. says: "I was in very poor health, nervous and run-down, and nothing in the way of medicine did me any good until my druggist recommended Vinol. It built up my health, restored strength and I feel that I owe my life to Vinol. I cannot praise it too highly."

We say positively there is nothing like Vinol to purify and enrich the blood and build up weak, run-down people. If it should fail in your case we will return your money. Blackmer & Tanquary.
